What's New in HEALTHe NL?

April 2022

Endoscopy Reports

Please be advised that effective Monday, April 4th, 2022, Endoscopy Reports from the St. Clare's Site (Eastern Health) and Health Sciences Centre Site will now be titled according to the procedure(s) performed. For example, from these sites, a colonoscopy procedure currently reported in HEALTHe NL as **Endoscopy Operative Report**, will now be reported as a **Colonoscopy Report**. This change to report names will eventually take effect for all Endoscopy sites. However, please be advised, that depending on where the procedure is performed, you may still see reports named as they are today until EndoManager 3.0 is implemented at each site.

Please see below example:

Examples of NEW report names

Existing report name

The screenshot shows the HEALTHe NL interface. On the left, a list of clinical documents is displayed, with the following entries highlighted:

- 2021-May-12 Esophagogastroduodenoscopy Report REDDY, Dr. S.

Virtual Care Provider Survey

The Newfoundland and Labrador Centre for Health Information (NLCHI) is conducting a survey to better understand the virtual care landscape in Newfoundland and Labrador from the perspective of health care providers. We're looking for your input, regardless of whether you have used virtual care in your practice.

This survey has been specifically designed for a variety of health care providers – physicians, psychiatrists, psychologists, pharmacists, registered nurses, nurse practitioners, licensed practical nurses, social workers, mental health and addictions counsellors, physiotherapists, occupational therapists, dietitians, and more!

Click to complete the [survey](#).

The survey takes about 5-10 minutes to complete. Responses are anonymous and will only be reported on in the overall survey results, not individually. Responses will be kept confidential.
